

Health information **recommended** by  
your **healthcare professional**

Healthinote is a **platform for doctors, nurses and pharmacists** to share trusted health information with their patients, delivering **better patient understanding** of their health and treatment, while optimising consultations

INTEGRATED INTO  
**econsult**

*"Such a brilliant innovation that has helped GPs offer extremely high quality information. Extremely easy to send by text. This has assisted us with limiting face to face time with patients, hence safer all round during the current pandemic"*

- GP
