

WOULD YOU LIKE TO...

...shut down air-conditioning even though key-card has been left in place but room is empty

...know when your guests are asleep without compromising privacy

...offer new personalized services based on behavior

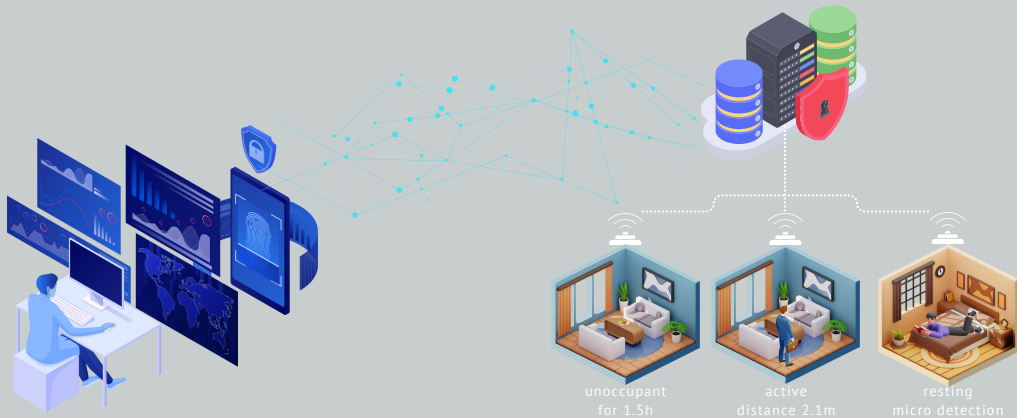

...provide even more discreet room service

VISEROTM

a standalone solution that provides
deep insights of your guests' behavior

- No privacy issues
- Low OPEX
- Unparalleled data
- Other sensors obsolete

VISEROTM as a solution

A cyber-physical system that integrates into existing environment, senses occupants and their behavior, and delivers data to Customer's Data Cloud.

VISEROTM added value

The data is used to optimize energy consumers, hospitality information systems and help Customers' business data analysis.

SALATEQ LTD

The team behind Salateq Ltd. has extensive experience in productizing and integrating deep-tech solutions into customers' systems. They have been working in world's leading engineering companies such as Microsoft, Nokia and Rolls-Royce.

Our clients trust us to always deliver what we promise, and we take that responsibility very seriously. Our mission is to go above and beyond for our clients, delivering exceptional solutions that meet their unique needs and exceed their expectations.

Our approach is grounded in the Nordic values of honesty, trust, and hard work, and we are confident that we can help your business succeed in today's fast-paced digital landscape.
